Mr. Wilson Crane of Blytheville, Ark., is visiting here at the home of his sister, Mrs. H. C. Bell.  
Mrs. Madara Henson of this place has just been allowed a government pension of thirty dollars per month.  
Automobile vacation tourists are growing more numerous as passengers through our town to their destinations.

The coal strike has been settled. The miners go back to work at the old scale, while the operators will pluck the consumer for two or three dollars more on the ton because of the "supply and demand."  
Our former townsman Mr. N. A. Maxwell, accompanied by his father, Mr. J. A. Maxwell, of Belgrade, were visitors at this office Wednesday last. N. A. is now a traveling salesman in Indiana and makes his headquarters at Indianapolis.  
We give the circuit court docket in this issue. About the only thing of special note in it is that in six divorce cases docketed the man is the plaintiff in each instance. This would indicate that it is the wives who are taking rope and doing the cavorting nowadays.  
Congressman M. E. Rhodes left last Saturday to return to Washington for the reconvening of the House on Tuesday, after a month's recess. Mr. Rhodes said before leaving that he hoped to be able to return here early in September and enter actively into his campaign for reelection.  
It is said that the wet and dry question figured largely in the Democratic contest for the nomination for Congress in this district, and that Dr. Wolff, the nominee, was largely supported by the wets. That is something well worth remembering by the days at the November election.  
No longer does the "mull" whistle to time our daily routine; no more shall we see the noble plume of condensing steam rising from the exhaust over there on a still, frosty morning—the mill has discarded steam power and a thumping, whistleless oil engine is doing its work.  
Mr. D. A. Goff of Cadet was a visitor at this office Thursday last. Mr. Goff lost his father and two daughters in the Sulphur Springs train wreck. He said that the body of one of his girls was missing for a day or two after the wreck because it had been taken to Peoria through a mistake of identity.

Mrs. J. S. Barger had two ribs fractured and was bruised about the face last Saturday morning in a peculiar manner. She was doing her Saturday's cleaning, and with the assistance of Uncle Jake was moving a folding-bed. The bed was open and Mrs. Barger was holding it so it would not close up, when from some cause the back end toppled over and caught her. Mrs. Barger was suffering considerably, but the last day or two she is resting more easy.—Bismarck Gazette.

The railroad company has temporarily annulled the stub train on the Potosi Branch because of the coal shortage. The only passenger and mail service left us under this arrangement is by the Bismarck local. You can get No. 31, southbound, and No. 32, northbound, as usual by taking a service car to Mineral Point and adding the cost to the price of the fare. But the railroad company don't mind a little thing like that. The main line local freight will give us some kind of a freight service during the suspension of the stub.

#### Miller Gets One Vote in Recount

A recount of the Republican ballots cast in the late primary election on Collector in this county, under contest proceedings instituted by John Scott, who, on the face of the official returns, was shown to have been defeated for that nomination by George Miller by a plurality of nine votes, was made by the county clerk last Wednesday. The review of the ballots disclosed no irregularities. Only one error in the tallying was found, which was in Miller's favor in the recount, making his plurality ten votes instead of nine.

#### OBITUARY.

Rudolph Eichenberger was born in Argau, Switzerland, May 25, 1859; came to this country in 1882, and was killed in the railroad wreck at Sulphur Springs, Mo., on August 5, 1922. He was married to Miss Anna Burgman Oct. 18, 1888, and to this union nine children were born, two of whom preceded their father to the spirit land. He leaves to mourn his death a wife, seven children, an adopted grandchild, six other grandchildren, a brother and two sisters, and a host of relatives and friends.

Mr. Eichenberger was a good man, a kind father and a true husband. He was a neighbor in the fullest scriptural meaning of the term. If any about him were sick, he was always there to minister to them. It did not matter who was in need, friend or foe, rich or poor, he was ready to help them. His home was always open to the preacher, and he was a pillar in the church, ever ready to support its institutions.

The funeral services were conducted by the writer, his pastor for ten years. I knew him well and he was my friend. The esteem and respect felt for him by the community was manifested by the largest concourse of people gathered at the church in a long time. We laid him away to await the resurrection of the just May the blessings of the Lord rest upon the bereaved ones.

A. M. ROBINSON.  
Irondale, Mo.

**The One-Ton Truck**

The Ford One-Ton Truck first made its appeal to the farmer and the merchant because of the merits of Ford Cars. And it made its wonderful reputation and great sales record because it lived up to every claim made for it.

The reliable Ford Motor, the special Ford steel chassis, the aluminum bronze worm-drive, all combine to produce a truck of unusual power, capacity and strength—a truck that lasts in service; a truck that solves the haulage problem at a very small operating and upkeep expense. Hence the demand for the Ford One-Ton Truck is constantly on the increase.

For the good of your business, whether it be farming, merchandising or manufacturing, you should come in and look over the Ford One-Ton Truck—NOW!

**IMPORTANT**  
We are prepared to furnish the Ford Truck equipped either with Standard or Special Gearing. The Standard Gearing gives the truck a maximum of power. The Special Gearing increases the speed of the truck from five to seven miles an hour, converting it into a Fast Delivery Car.

**Revive Plan to Build World City at Brussels**

Brussels.—The striking idea of building an "international city" at the gates of Brussels, which was first proposed to King Albert of the Belgians in 1913, has been revived and it is now proposed to erect the city and inaugurate it at the same time as the Brussels international exposition in 1930.

It is intended that the international city shall be a permanent institution, where every country will have a building in which it will display not only its manufactures and products but examples of its art and records of its social progress.

These plans were first submitted to King Albert in 1913 by Hendrick C. Anderson, an American sculptor, formerly of Newport, R. I., who then was living in Rome. Mr. Anderson was aided in preparing his plans for the ideal city by Senator Henri La Fontaine and Paul Otlet.
